

/home/brunolima/eclipse
-workspace/fw_PlacaDeControle
_2.0/main/include/scheduling.h

```
graph BT; A["/home/brunolima/eclipse  
-workspace/fw_PlacaDeControle  
_2.0/main/scheduling.c"] --> B["/home/brunolima/eclipse  
-workspace/fw_PlacaDeControle  
_2.0/main/include/scheduling.h"]; C["/home/brunolima/eclipse  
-workspace/fw_PlacaDeControle  
_2.0/main/system_manager.c"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `/home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/include/scheduling.h`. Below it are two white boxes representing source files. The left box is `/home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/scheduling.c` and the right box is `/home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/system_manager.c`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.

/home/brunolima/eclipse
-workspace/fw_PlacaDeControle
_2.0/main/scheduling.c

/home/brunolima/eclipse
-workspace/fw_PlacaDeControle
_2.0/main/system_manager.c
