The diagram illustrates a file dependency structure. At the top is a gray box containing the path to a header file: /home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/include/sectorization.h. Below this box are two white boxes. The left box contains the path to a source file: /home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/sectorization.c. The right box contains the path to another source file: /home/brunolima/eclipse -workspace/fw_PlacaDeControle _2.0/main/system_manager.c. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.
